

ESD Heat Resistant Gloves

This product, which is heat resistant up to 300°C, offers safe and controlled use thanks to its HT-coated outer surface and carbon-reinforced, dust-free polyester inner lining. Its one-size-fits-all design makes it suitable for different users. The outer surface is green, and the inner surface is black carbon striped blue. It is odorless, has a surface resistance of $10^8 \Omega$, and is manufactured using high-speed chain stitching technology. It is an ideal solution for industrial and precision work environments.

Size:

one-size-fits-all

Color:

Outer surface: Green

Inner surface: Black carbon-striped blue

Test:

Normal

Material:

Outer surface: HT-coated, heat-resistant material

Inner lining: Carbon-blended polyester lining (dust-free structure)

Datasheet

Product Code: EHG-5015

Pages: 2 / 2

Date: 09.01.2026

Heat Resistance:

300 °C

Size:

Length: 270 mm ± 5 mm

Width: 140 mm ± 3 mm

Cuff Size:

Same as width

Resistivity:

10⁸ Ω

Machine:

Manufactured with a high-speed chain stitch machine

Compliant with IEC 61340-5-1:2016
