

ESD Heat Resistant Gloves

This product is heat resistant up to 180°C. Its HT-coated outer surface and carbon-infused, dust-free polyester inner lining ensure safe and clean use. Its one-size-fits-all design makes it suitable for different users. The outer surface is white, and the inner surface is black carbon striped blue. It is odorless, has a surface resistance of $10^8 \Omega$, and is manufactured using high-speed chain stitching technology. It is an ideal solution for controlled and precise working environments.

Size:

one-size-fits-all

Color:

Outer surface: White

Inner surface: Black carbon-striped blue

Test Item:

Normal

Material:

Outer surface: HT-coated, heat-resistant material

Inner lining: Carbon-blended polyester lining (dust-free structure)

Heat Resistance:

180°C

	Datasheet	Product Code: EHG-5014
		Pages: 2 / 2
		Date: 09.01.2026

Size:

Length: 250 mm $\pm$ 5 mm

Width: 130 mm $\pm$ 3 mm

Cuff Width:

Same as product width

Resistivity:

$10^8 \Omega$

Machine:

Manufactured with a high-speed chain stitch machine

Compliant with IEC 61340-5-1:2016
